

JOB HAZARD ANALYSIS (JHA)		Date: <b>04-01-06</b>	<input checked="" type="checkbox"/> New JHA Revised JHA
Task: Utilizing unknown locations		<b>JHA #2</b>	Page <u>  1  </u> of <u>  2  </u>
Task Overview:	APHIS personnel will need to establish areas of operations during a deployment. A command center will have to be established. A staging area may be necessary as well as various bases where tasks (ex. euthanasia, sample collection, etc..) are conducted.		
Task Elements:	<ul style="list-style-type: none"> <li>• Establish a Command Center</li> <li>• Establish Bases of Operation</li> <li>• Establish Containment Zones</li> </ul>		
Personal Protective Equipment:	Work clothes, Dust mask, air purifying respirator, safety glasses, nitrile (exam) gloves, work gloves		
Tools and Equipment:			
<b>OCCUPATIONAL HEALTH CONCERNS</b>			
<b>Chemical Agents:</b>  Possible, exact compound unknown	<b>Physical Agents:</b>  Violence Criminal Activity Slip/Trip/Fall Hazards Inaccessibility	<b>Biological Agents:</b>  Human borne pathogens Animal borne pathogens Mold	
<b>Activity/Sequence of Job Steps</b>	<b>Potential Hazards/ Injury sources</b>	<b>Safe Action or Procedure</b>	
1) Establish a Command Center	Violence Criminal Activity Slip/Trip/Fall hazards Inaccessibility Mold	<ul style="list-style-type: none"> <li>• Confer with the Security Officer when deciding upon a Command Post location</li> <li>• Follow all Security guidelines on determining and securing locations for APHIS use</li> <li>• Assess physical condition of possible site</li> <li>• Mark for repair any substandard railing, flooring or other walking/working surface</li> <li>• Assure that site is accessible for persons of all ability and that layout or configuration will not impede evacuation (see HASP section 10 for further guidance). Assure that location can meet sheltering needs in case of emergency</li> <li>• Assess the location for stained tiles, walling, floors, and surfaces. If staining is observed and mold is considered a possibility, air monitor for mold.</li> </ul>	

<p>2) Establish Bases of Operation</p>	<p>Possible chemical contaminants Violence Criminal Activity Slip/Trip/Fall hazards Inaccessibility Human borne pathogens Animal borne pathogen</p>	<ul style="list-style-type: none"> <li>• If APHIS Field (Operations) personnel must deal with property owner to request use of property, confer with the Security Officer for security considerations.</li> <li>• Confer with owner of property for possible chemicals that are on site/were used on site</li> <li>• Obtain MSDSs for chemicals still on site and implement a Hazard Communication program (see Appendix 3-2-A for a sample program)</li> <li>• Confer with the Security Officer when deciding upon a Command Post location</li> <li>• Follow all Security guidelines on determining and securing locations for APHIS use</li> <li>• Assess physical condition of possible site</li> <li>• Mark for repair any substandard railing, flooring or other walking/working surface or assure that such areas are marked and not utilized by APHIS personnel</li> <li>• Assure that workable evacuation plans are developed for the location and that shelter locations or procedures are developed (see HASP section 10 for further guidance).</li> <li>• See HASP sections 8 (Site Control) and 9 (Decontamination) for concerns with Human/animal Pathogens</li> </ul>
<p>3) Establish Containment Zones</p>	<p>Possible chemical contaminants Human borne Pathogens Animal borne pathogen</p>	<ul style="list-style-type: none"> <li>• See HASP sections 8 (Site Control) and 9 (Decontamination)</li> </ul>
